A-1 window unit: front

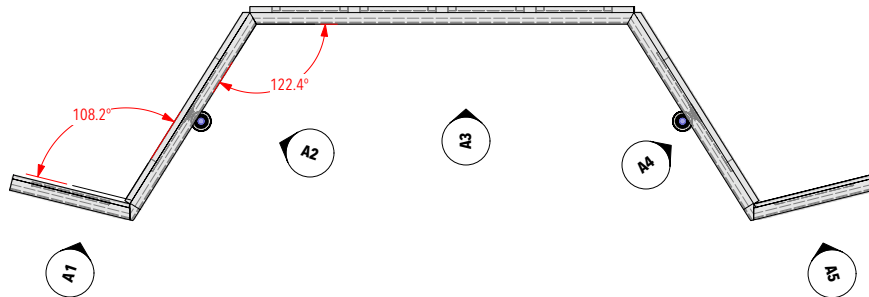

A1 wall A1

NOTE:

- the entire window structure slants 2.5 degree angle: see rendering
- the crown molding placed all across the top of the wall: apply the best fit in the market
- 1/2" half round molding placed on the wall SL and SR
- the wall scones placed in SR and SL walls about 6' off the floor
- the window unit is symmetry design - make sure the bottom line slants 2.5 degree angle

B-1 balcony: front

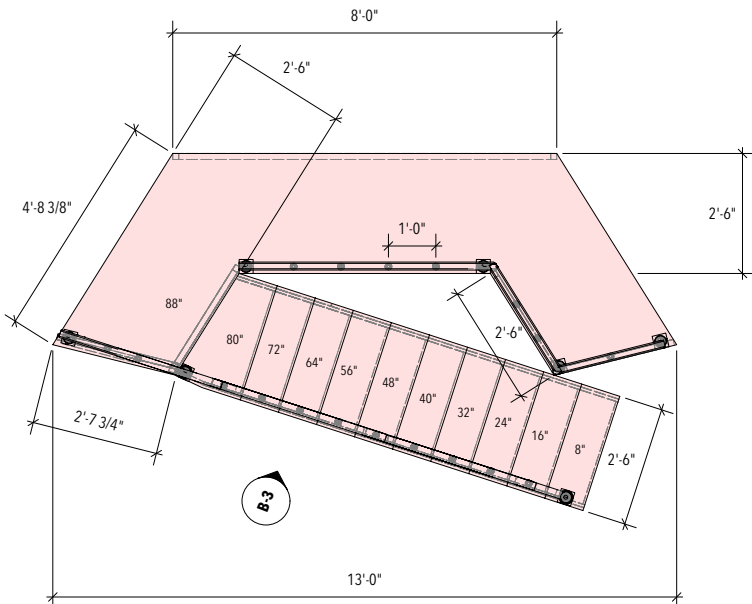

B-3 balcony: stairs elevation

NOTE:

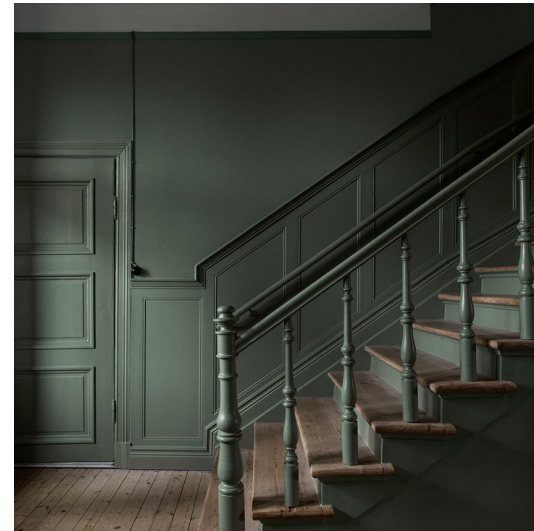

- the stairs and balcony is level, not slanted
- the less structure under the balcony the better: the steel structure would be ideal, it can be modified as necessary
- the hand rails and posts for stairs are traditional victorian style, stay away from too modern style it can be flexible depending upon availability and budget
- see the perspective view in #4-2
